

Registration

The Spring and Summer 2025 Seaver College registration begins on Tuesday, November 5 and continues through the end of each term's respective add/drop period.

Please check your Student Center in WaveNet soon for up-to-do-date information about what time you may begin to register, and what holds you may have.

Attention: WaveNet doesn't always cooperate with Safari. If you have a Mac, try using Firefox.

For a successful registration experience, please follow the steps below.

1. Look Over Your Degree Audit Report (DAR)

- Access your DAR through the Student Services area of [WaveNet](#) by clicking on the "Degree Audit" link.
- [Click here for an online guide that explains how to read your Degree Audit Report.](#)

2. Build a Course Schedule and Choose Alternate Course Options

- Review the Schedule of Classes in [WaveNet](#). Click on Student Services, then either Add a Class or Wishlist.
- Note the available courses that you need in the Schedule of Classes and use these course options to begin building your schedule. If a "must have" course is not available, contact the [Division Office](#) that offers the course to see when it will be offered in the future.
- Select several alternate courses that will fit around your "must have" classes to use in the event that a particular course you selected closes before you register.

3. Clear All Registration Holds

- Prior to the beginning of pre-registration, visit the Student Services area of [WaveNet](#) to see if you have any registration holds.
- Resolve any holds that appear prior to your registration time by contacting the department that placed the hold.
- Students with less than 60 units completed must be cleared for registration by their advisor. Students enrolled in a First-Year Seminar may be cleared by their seminar professor.

4. How to add/drop during the designated period.

- [Step-by-step registration instructions](#)

5. Before you modify your schedule, please keep in mind the following:

- Dropping below 12 units or registering in more than 18 units will affect your charges and financial aid.
- If you withdraw from all of your courses for the semester, you will incur a **\$150 withdrawal fee**.
- Be sure to check that your desired class is open before you drop one in which you are already enrolled.

6. View Your New Schedule

- Visit the Student Services area of [WaveNet](#) and view your student schedule.
-

Use the Wish List!

Log in to [WaveNet](#) . Click on Student Services, then wish list. Pick the appropriate term and then search for classes. Each selected class will appear in your wish list. When your registration time comes, you can select classes from your wish list instead of browsing for each class. Keep in mind, just because a class is in your wish list doesn't mean that you are in the class or that you are guaranteed to get in a class. You still need to complete your registration at your appointed time.
